#### STATEMENT OF THE BOARD OF EXECUTIVE OFFICERS (CONTINUED)

#### BOARD OF EXECUTIVE OFFICERS' STATEMENT OF RESPONSIBILITY

The Board of Executive Officers of the Corporation is responsible for preparing the separate financial statements, which give a true and fair view of the separate financial position of the Corporation as at 31 December 2018, and its separate financial performance and its separate cash flows for the year then ended in accordance with Vietnamese Accounting Standards, accounting regime for enterprises and legal regulations relating to financial reporting. In preparing these separate financial statements, the Board of Executive Officers is required to:

- Select suitable accounting policies and then apply them consistently;
- Make judgments and estimates that are reasonable and prudent;
- State whether applicable accounting principles have been followed, subject to any material departures disclosed and explained in the separate financial statements;
- Prepare the separate financial statements on the going concern basis unless it is inappropriate to presume that the Corporation will continue in business; and
- Design and implement an effective internal control system for the purpose of properly preparing and presenting the separate financial statements so as to minimise errors and frauds.

The Board of Executive Officers is responsible for ensuring that proper accounting records are kept, which disclose, with reasonable accuracy at any time, the separate financial position of the Corporation and that the separate financial statements comply with Vietnamese Accounting Standards, accounting regime for enterprises and legal regulations relating to financial reporting. The Board of Executive Officers is also responsible for safeguarding the assets of the Corporation and hence for taking reasonable steps for the prevention and detection of frauds and other irregularities.

The Board of Executive Officers confirms that the Corporation has complied with the above requirements in preparing these separate financial statements.

#### **INDEPENDENT AUDITORS' REPORT**

#### <u>To</u>: The Shareholders, the Boards of Directors and Executive Officers Airports Corporation of Vietnam

We have audited the accompanying separate financial statements of Airports Corporation of Vietnam (the "Corporation"), prepared on 30 March 2019 as set out from page 5 to page 58 which comprise the separate balance sheet as at 31 December 2018, the separate statement of income and separate statement of cash flows for the year then ended, and a summary of significant accounting policies and other explanatory information.

#### Board of Executive Officers' Responsibility for the Separate Financial Statements

The Board of Executive Officers is responsible for the preparation and fair presentation of these separate financial statements in accordance with Vietnamese Accounting Standards, accounting regime for enterprises and legal regulations relating to financial reporting and for such internal control as the Board of Executive Officers determines is necessary to enable the preparation of separate financial statements that are free from material misstatement, whether due to fraud or error.

#### Auditors' Responsibility

Our responsibility is to express an opinion on these separate financial statements based on our audit. We conducted our audit in accordance with Vietnamese Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the separate financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the separate financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the separate financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to the Corporation's preparation and fair presentation of the separate financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Corporation's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the Board of Executive Officers, as well as evaluating the overall presentation of the separate financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

#### Auditors' Opinion

In our opinion, the separate financial statements present fairly, in all material respects, the separate financial position of the Corporation as at 31 December 2018, and its separate financial performance and its separate cash flows for the year then ended in accordance with Vietnamese Accounting Standards, accounting regime for enterprises and legal regulations relating to financial reporting.

Deloitte refers to one or more of Deloitte Touche Tohmatsu Limited ("DTTL"), its global network of member firms, and their related entities. #### INDEPENDENT AUDITORS' REPORT (CONTINUED)

#### **Emphasis of Matters**

As stated in Note 1 of the Notes to the separate financial statements, we would like to draw attention to the matters as follows:

- At the date of the separate financial statements for the year ended 31 December 2018, the Corporation have not received the decision about finalisation of the Corporation's equitisation when the Corporation transformed into a joint stock company as at 31 March 2016 from the competent authorities.
- The Corporation continues to manage and utilise the assets of the Airfield and carry out the repair and maintenance as well as investment on these assets from the Airfield's operation. In awaiting authorities' guidance on management, utilisation and accounting treatment on the Airfield's assets, the assets, costs, revenues generated from the Airfield's management and utilisation are separately recorded as other receivables and other payables in the separate balance sheet as at 31 December 2018. The adjustments in relation to these operating activities (if any) will be made in accordance with competent authorities' decision and guidance.

We also draw attention to Notes 37 of the Notes to the separate financial statements, the amount of collection, payment, investment into Airfield operations regarding assets of Airfield has not been finalised by competent authorities.

Our opinion is not modified in respect of these matters.

## Disclosure of information comparability in the separate financial statements

Comparative figures are the figures of the audited separate financial statements for the year ended 31 December 2017.

## 2. ACCOUNTING CONVENTION AND FINANCIAL YEAR

#### Accounting convention

The accompanying separate financial statements, expressed in Vietnam Dong ("VND"), are prepared under the historical cost convention and in accordance with Vietnamese Accounting Standards, accounting regime for enterprises and legal regulations relating to financial reporting.

The accompanying separate financial statements are presented to reflect the separate financial position as at 31 December 2018, the separate financial performance and separate cash flows for the year ended 31 December 2018. The consolidation of investments in subsidiaries, associates and joint ventures will be presented in the consolidated financial statements prepared by the Corporation. The Corporation's investments are recognised under the accounting policies presented in Note 3 below.

The accompanying separate financial statements are not intended to present the financial position, results of operations and cash flows in accordance with accounting principles and practices generally accepted in countries and jurisdictions other than Vietnam.

#### **Financial year**

The Corporation's financial year begins on 01 January and ends on 31 December.

## 3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The significant accounting policies, which have been adopted by the Corporation in the preparation of these separate financial statements, are as follows:

#### Estimates

The preparation of separate financial statements in conformity with Vietnamese Accounting Standards, accounting regime for enterprises and legal regulations relating to financial reporting requires the Board of Executive Officers to make estimates and assumptions that affect the reported amounts of assets, liabilities and disclosures of contingent assets and liabilities at the date of the separate financial statements and the reported amounts of revenues and expenses during the financial year. Although these accounting estimates are based on the Board of Executive Officers' best knowledge, actual results may differ from those estimates.

\* M.S.C.A.

#### Cash and cash equivalents

Cash and cash equivalents comprise cash on hand, demand deposits and short-term, highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

#### **Financial investments**

#### Held-to-maturity investments

Held-to-maturity investments comprise term deposits.

Interest income from term deposits is recognised in the separate income statement on a time basis.

#### Investments in subsidiaries

A subsidiary is an entity over which the Corporation has control. Control is achieved where the Corporation has the power to govern the financial and operating policies of an investee enterprise so as to obtain benefits from its activities.

#### Interests in joint ventures

A joint venture is a contractual arrangement whereby the Corporation and other parties undertake an economic activity that is subject to joint control, i.e., the strategic financial and operating policy decisions relating to the activities require the unanimous consent of the parties sharing control.

Where a group entity undertakes its activities under joint venture arrangements directly, the Corporation's share of jointly controlled assets and any liabilities incurred jointly with other ventures are recognised in the financial statements of the relevant entity and classified according to their nature. Liabilities and expenses incurred directly in respect of interests in jointly controlled assets are accounted for on an accrual basis. Income from the sale or use of the Corporation's share of the output of jointly controlled assets, and its share of joint venture expenses, are recognised when it is probable that the economic benefits associated with the transactions will flow to/from the Corporation and their amount can be measured reliably.

Joint venture arrangements that involve the establishment of a separate entity in which each venture has an interest are referred to as jointly controlled entities.

#### Investments in associates

An associate is an entity over which the Corporation has significant influence and that is neither a subsidiary nor an interest in joint venture. Significant influence is the power to participate in the financial and operating policy decisions of the investee but not control or joint control over those policies.

#### Other long-term investments

Other long-term investments represent the Corporation's investments in ordinary shares of the entities over which the Corporation has no control, joint control, or significant influence. Other long-term investments are initially recognised at cost plus transaction costs that are directly attributable to the acquisition of this long-term investments.

## Provision for impairment of long-term financial investments

The Corporation initially recognised investments in subsidiaries, joint ventures, associates and other long-term investments at cost. The Corporation's share of the net profit of the investee after acquisition is recognised in the separate income statement. Other distributions received other than such profit share are deducted from the cost of the investments as recoverable amounts.

Investments in subsidiaries, joint ventures, associates and other long-term investments are carried in the separate balance sheet at cost less provision for impairment of such investments (if any). Provisions for impairment of investments in subsidiaries, joint ventures associates and other long-term investments are made in accordance with Circular No. 228/2009/TT-BTC dated 7 December 2009 ("Circular 228") issued by the Ministry of Finance on "Guiding the appropriation and use of provisions for devaluation of inventories, loss of financial investments, bad debts and warranty for products, goods and construction works at enterprises", Circular No. 89/2013/TT-BTC dated 28 June 2013 ("Circular 89") by the Ministry of Finance amending and supplementing Circular 228/2009/TT-BTC and prevailing accounting regulations.

#### Receivables

Receivables represent the amounts recoverable from customers or other debtors and are stated at book value less provision for doubtful debts.

Provision for doubtful debts is made for overdue debts as specified in the economic contracts, contract commitments or debt commitments that have been repeatedly requested for payment by the Corporation but not yet collected, or when the debtor is in bankruptcy, in dissolution, or is experiencing similar difficulties.

#### Inventories

Inventories are stated at the lower of cost and net realisable value. Cost comprises purchase prices, non-refundable taxes, transportation and stevedoring expenses, preservation expenses during purchase, wastage norm and other directly attributable expenses that have been incurred in bringing the inventories to their present location and condition. Net realisable value represents the estimated selling price less all estimated costs to completion and costs to be incurred in marketing, selling and distribution.

## AIRPORTS CORPORATION OF VIETNAM FORM B 09-DN NOTES TO THE SEPARATE FINANCIAL STATEMENTS (Continued)

The Corporation applies a perpetual method to record inventories. Inventories are accounted for under perpetual inventory method. The stock-out price of material is calculated using the first in - first out (FIFO) method, the stock-out price of inventories is calculated using the weighted average method, except the stock-out price off free-duty goods are calculated using the specific identification method.

The evaluation of necessary provision for inventory obsolescence follows current prevailing accounting regulations which allow provisions to be made for obsolete, damaged, or sub-standard inventories and for those which have costs higher than net realisable values as at the balance sheet date.

#### Tangible fixed assets and depreciation

Tangible fixed assets are stated at cost less accumulated depreciation. The costs of purchased tangible fixed assets comprise their purchase prices and any directly attributable costs of bringing the assets to their working condition and location for their intended use.

The costs of tangible fixed assets constructed by contractors comprise the finally accounted cost of the work and any directly attributable costs of bringing the assets to their working condition and location for their intended use.

Items which have been put into use but not yet approved by authorities will be temporarily added to the cost of tangible fixed assets and depreciated. Upon a final account of these tangible fixed assets, the cost will be accordingly adjusted while depreciation expenses remain intact for adjustment (up or down) to be made over the remaining depreciable time of the assets.

Costs incurred after initial recognition in respect of repairs, maintenance, upgrades and operations of tangible fixed assets recognised in the separate income statement. Unless these costs are certain to make tangible fixed assets generate economic benefits in the future higher than initially revaluated amount, they will be debited to cost of tangible fixed assets.

Tangible fixed assets are depreciated using the straight-line method over the estimated useful lives as follows:

	Years
Buildings and structures	5 - 25
Machinery and equipment	3 - 8
Motor vehicles	6
Office equipment	3 - 5

Loss or gain resulting from sales and disposals of tangible fixed assets is the difference between profit from sales or disposals of assets and their residual values and is recognised in the separate income statement.

## AIRPORTS CORPORATION OF VIETNAM FOI NOTES TO THE SEPARATE FINANCIAL STATEMENTS (Continued)

#### Intangible assets and amortisation

Intangible assets represent copy rights, computer software and cost of logo design that are stated at cost less accumulated amortisation.

Copyrights, computer software and cost of logo design are amortised using the straight-line method over their estimated useful lives from 3 - 5 years.

#### Leasing

#### The Corporation as lessee

Leases where substantially all the rewards and risks of ownership of assets remain with the leasing company are accounted for as operating leases. Rentals payable under operating leases are charged to the separate income statement on a straight-line basis over the term of the relevant lease. Benefits received and receivable as an incentive to enter into an operating lease are also spread on a straight-line basis over the lease term.

#### The Corporation as lessor

Revenue from operating leases represents premises rental revenue at airports. Revenues from operating leases are charged to the separate income statement on a straight-line basis over the lease term.

## **Construction in progress**

Properties in the course of construction, purchasing for production, administrative purposes, or for other purposes, are carried at cost. Cost includes costs that are necessary to form the assets comprises purchase prices, installation and construction costs, equipment, service fees and other directly attributable expenses in accordance with the Corporation's accounting policy. Those expenses shall be capitalised into historical cost based on temporary estimate (in case total expenses have not been finalised) when they are ready for their intended use. Depreciation of these assets, on the same basis as other assets, commences when the assets are ready for their intended use and subject to approval by appropriate level of competent authorities. Assets of the Airfield after being finally finalised shall be separate from the Corporation's assets and record as other receivables from the State Budget.

## Prepayments

Prepayments are expenses which have already been paid but relate to results of operations of multiple accounting periods. Prepayments include tools and supplies issued for consumption, rental of aircraft parking, fuel costs and are expected to provide future economic benefit to the Corporation. These expenditures have been capitalised as prepayments, and are allocated to the separate income statement using the straight-line method in accordance with the current prevailing accounting regulations.

HOC

## AIRPORTS CORPORATION OF VIETNAM FOR NOTES TO THE SEPARATE FINANCIAL STATEMENTS (Continued)

#### **Payable provisions**

Payable provisions are recognised when the Corporation has a present obligation as a result of a past event, and it is probable that the Corporation will be required to settle that obligation. Provisions are measured at the Board of Executive Officers' best estimate of the expenditure required to settle the obligation as at the balance sheet date.

#### **Revenue recognition**

#### Revenue from the sale goods

Revenue from the sale of goods is recognised when all five (5) following conditions are satisfied:

- (a) the Corporation has transferred to the buyer the significant risks and rewards of ownership of the goods;
- (b) the Corporation retains neither continuing managerial involvement to the degree usually associated with; ownership nor effective control over the goods sold;
- (c) the amount of revenue can be measured reliably;
- (d) it is probable that the economic benefits associated with the transaction will flow to the Corporation; and
- (e) the costs incurred or to be incurred in respect of the transaction can be measured reliably.

Revenue from the sale of goods of the Corporation are mainly from duty-free sales in duty-free stores at Noi Bai International Airport.

#### Revenue from services rendered

Revenue of a transaction involving the rendering of services is recognised when the outcome of such transactions can be measured reliably. Where a transaction involving the rendering of services is attributable to several years, revenue is recognised in each year by reference to the percentage of completion of the transaction at the balance sheet date of that year. The outcome of a transaction can be measured reliably when an all four (4) following conditions are satisfied:

- (a) the amount of revenue can be measured reliably;
- (b) it is probable that the economic benefits associated with the transaction will flow to the Corporation;
- (c) the percentage of completion of the transaction at the balance sheet date can be measured reliably; and
- (d) the costs incurred for the transaction and the costs to complete the transaction can be measured reliably.

Revenue from services rendered of Corporation is subjected to regulations of the State on prices and price framework of some aviation services at Airports and Aerodromes of Vietnam. In which:

Aviation services revenue

- + Revenue of passenger services
- + Revenue of passenger and baggage security screening services
- + Revenue of cargo security screening services
- + Revenue of check-in counter rental
- + Revenue of package ground handling services
- + Revenue of franchise services for aviation services
- + Revenue of flight support services
- + Revenue of other aviation services

#### Revenue of non-aviation services

Revenue of non-aviation services include revenue of premises lease, ground services, lease of equipment and assets, advertising lease, transport, residence, security inspection and monitoring and other non-aviation services.

#### Other revenue

Interest income is accrued on a timely basis and determined by the outstanding balance of deposits and the applicable interest rate.

Dividend income from investments is recognised when the Corporation's right to receive payment has been established.

#### **Revenue deductions**

Revenue deductions at the Corporation include rebate of service for carriers, which are prorated on the total value of aviation services in monthly invoices in which the price and charge frame are stipulated in Airports and Aerodromes by the State.

#### **Foreign currencies**

Transactions arising in foreign currencies are translated at exchange rates ruling at the transaction date. The balances of monetary items denominated in foreign currencies as at the balance sheet date are retranslated at the exchange rates on the same date. Exchange differences arising from the translation of these accounts are recognised in the separate income statement.

#### **Borrowing costs**

Borrowing costs are recognised in the income statement in the year when incurred unless they are capitalised in accordance with Vietnamese Accounting Standard No. 16 "Borrowing costs". Accordingly, borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale.

## AIRPORTS CORPORATION OF VIETNAM FORM NOTES TO THE SEPARATE FINANCIAL STATEMENTS (Continued)

#### Taxation

Income tax expense represents the sum of the tax currently payable and deferred tax.

The tax currently payable is based on taxable profit for the year. Taxable profit differs from profit before tax as reported in the separate income statement because it excludes items of income or expense that are taxable or deductible in other years (including loss carried forward, if any) and it further excludes items that are never taxable or deductible.

Deferred tax is recognised on significant differences between carrying amounts of assets and liabilities in the separate financial statements and the corresponding tax bases used in the computation of taxable profit and is accounted for using balance sheet liability method. Deferred tax liabilities are generally recognised for all temporary differences and deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which deductible temporary differences can be utilised.

Deferred tax is calculated at the tax rates that are expected to apply in the year when the liability is settled or the asset realised. Deferred tax is charged or credited to profit or loss, except when it relates to items charged or credited directly to equity, in which case the deferred tax is also dealt with in equity.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same tax authority and the Corporation intends to settle its current tax assets and liabilities on a net basis.

The determination of the tax currently payable is based on the current interpretation of tax regulations. However, these regulations are subject to periodic variation and their ultimate determination depends on the results of the tax authorities' examinations.

Other taxes are applied in accordance with the prevailing tax laws in Vietnam.

#### Profit distribution, appropriation of funds from profit after tax

The Corporation distributes its profits and establishes funds in accordance with the organisation and operation charter of the shareholding company and the Resolution of the Annual General Meeting of Shareholders.
